KURVEO TOUCH-SENSITIVE KIOSK
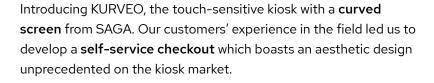

Curved touchscreen, with a trendy, bright design

SAGA

intel inside CORE i5

ANDROID

WiFi

Introducing KURVEO, the touch-sensitive kiosk with a **curved screen** from SAGA. Our customers' experience in the field led us to develop a **self-service checkout** which boasts an aesthetic design unprecedented on the kiosk market.

This payment kiosk is equipped with the basic elements of a **stand-alone display station** including a 23.6" curved capacitive touchscreen, a thermal receipt printer and a 2D scanner/NFC reader, combined with an arm fitted with a bracket capable of holding a payment terminal **compatible with all brands.**

The KV238W/A self-ordering kiosk is available for Windows and Android operating systems, and has been designed to provide **quick and easy access** to the components (paper change, scanner settings, EPT connection, etc.)

This interactive kiosk is equipped with a **LED at the base** controlled by a programme to be integrated into the checkout software to manage the status indicator lights.

PRODUCT KEY FEATURES

• 23.6" self-ordering kiosk, Android or Windows operating system

• Curved touchscreen design

• Integration of a 2D scanner, a printer and an EPT support

• Easy access to modules
