RIA TOUCH POS

A large, slim screen with a Android "Z" stand

SAGA

ANDROID   WiFi

The TPV RIA is the first 15.6" touchscreen system with an Android motherboard from SAGA, designed to meet the needs of software publishers developing under the Android operating system. Featuring a **15.6" Full HD display** with ultra-thin contours, it offers an exceptional visual experience and an intuitive user interface.

The RIA POS system (R156D) comes with an **8GB memory array and 128GB hard disk** as standard, guaranteeing optimum speed and efficiency for all your software applications. Its all-aluminium alloy construction ensures ruggedness and durability, while retaining an elegant, modern design.

Thanks to its **foldable design**, the TPV RIA adapts easily to different working environments, offering maximum flexibility for installation and use. What's more, its foot integrates all cable passages, ensuring a clean installation with no visible cables.

The **Android POS** is the ideal choice for retailers looking for a high-performance, attractive and versatile POS, capable of adapting to any situation and responding to the most demanding environments.
