

SAGA 21.5 PC PANEL

Slim and elegant
industrial PC/monitor combo

SAGA

SAGA 21.5" multi-touch 16/9 PC panel

SAGA has a range of 16/9 PC panels with a slim, elegant design. The SGPC215 is the only 21.5" PC panel available. It can be used as a POS (mounted on a VESA100 pole) or integrated into ordering/payment kiosks (OEM). Its aluminium chassis is ideal for dissipating heat from the fanless Intel®Core i5-8250U processor.

Combined with a **multi-touch** projected capacitive technology, the SGPC215 features an LED LCD screen for a brightness close to 350 cd/m².

It provides ample storage capacity with its 8GB memory stick and 128GB mSATA SSD as standard.

Combined with KOBÉ self-ordering kiosks in restaurants, the **SAGA PC Panel** is placed in the kitchen to receive orders placed on KOBÉ et KURVEO DESK touch kiosks.

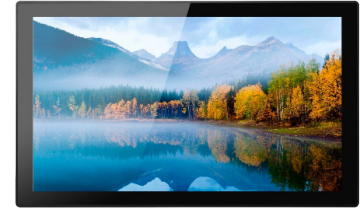

PRODUCT KEY FEATURES

- Intel® Core Kaby Lake Refresh i5-8250U processor
- 21.5" LED screen with PCAP touch-sensitive panel
- VESA 100 format mounting on Retail pole or wall
- Aluminium frame
- Integrated Wi-Fi as standard

SYSTEM

CHARACTERISTICS

Processor	Intel Core KabyLake i5-8250U - 1.60Gzh QuadCore 3.4 GHz max - Fanless, 2MB cache, 32 and 64 bits compatible
Motherboard	Industrial type
Memory	1 SO-DIMM slot 8GB DDR3L 1333/1600 MHz as standard +1 free slot- Max 16GB
Video	Intel HD Graphics
Audio	Realtek ALC 662HD
Network	Integrated Realtek network card RTL8111E Gigabit Ethernet Controller 1xRJ45
Wi-Fi	Mini PCI Express card - Integrated antennas
Data storage	Internal 128GB Kingston mSATA SSD
Loudspeaker	2 x speakers internally connected to the card
Operating system	Windows 10, 11 and Linux
Manufacturer warranty	1 year return to workshop
